OVERVIEW

Prime Essential is a proven Workforce Solutions Provider. As a HSEQ Consultancy, with a Workforce Solutions Division, we truly understand HSEQ disciplines and know how to read people. This provides an effective blend of expertise and foundation to be a leading HSEQ Workforce Solutions Provider. We have a dedicated recruitment team supporting Organizations who engage Health, Hygiene, Safety, Security, Environmental, Regulatory, Relations, Quality Assurance or Quality Control Professionals.

CONTRACTOR HIRE

With an established contractor network, grown since 2008, with either Prime Essential approved contractors or contractors from trusted, reliable sources. Our contacts refer their best people to us if they can't keep them busy. Contractors who achieve a Prime Essential approved status have access to our portal, maintaining their profile so we have visibility of our top contractor's availability, for you.

Major Project Execution	Training & Development	Incident Investigation
Turnaround Execution	Field Representation	Gap Analysis
Program Development	Auditing & Inspection	SMS Development

TESTIMONIALS

Firemaster Oilfield Services

Firemaster Oilfield Services has had the pleasure of working with Wayne at Prime Essential for Contract Hire. We utilize Prime Essential for our turnaround projects, they have proven themselves a key partner to ensuring we get the right people in the field with the experience we need. We will continue to use Prime Essential as we grow our business.

John Steward - Health & Safety Director - Surerus Pipeline

After receiving Wayne's number from a trusted colleague, I called to ask if Prime Essential could provide specialist OH&S support from a contractor and received an exceptional service. I'll continue to use Prime Essential after receiving professional, effective and personable support. Wayne was able to talk about individuals he could connect me with on the spot. Prime Essential providing what they called a Prime Essential Approved Contractor, assuring me they had a good track record. That individual exceeded our expectations with the outcome, just like Wayne suggested, it was a perfect match. To add, it was a Saturday when I called, expecting to have to leave a message. Instead, I had 2 options with-in a few hours, one person already in location and the another who could be at site on Monday. I highly recommend contacting Wayne if you need Health & Safety Professionals for Contract Hire. My experience makes me feel inclined to trust Prime Essential's capabilities across their Employee Search, Outplacement and Inter-to-Perm Workforce Solutions too.

Lee Picco - Project Health & Safety Lead [\$4.5Bn CAPEX]

Wayne is the one the most talented and personable recruiting professionals I've had the pleasure of working with. It was clear early on that he can identify the right people, with the right experience required when conducting searches, and also has the ability to attract and engage them. Wayne achieves this through empathizing, relating and truly understanding an individuals motivation (i.e. he treats you like a human being). I would recommend Wayne to anyone, anytime.
